

APBC 2007

The Fifth **Asia-Pacific
Bioinformatics Conference**

Hong Kong, 15 - 17 January 2007

<http://www.cs.hku.hk/apbc2007>

CONFERENCE CHAIR

Francis YL Chin, The University of Hong Kong, Hong Kong

PROGRAM CHAIRS

David Sankoff, The University of Ottawa

Lusheng Wang, The City University of Hong Kong

The Asia-Pacific Bioinformatics Conference series is an annual forum for exploring research, development, and novel applications in bioinformatics. The Fifth Asia-Pacific Bioinformatics Conference, APBC2007, will be held in Hong Kong.

High-throughput sequencing and functional genomics technologies have given us a human genome sequence and have enabled large-scale genotyping and gene expression profiling of human populations. Databases containing large numbers of sequences, polymorphisms, and gene expression profiles of normal and diseased tissues in different clinical states are rapidly being generated for human and model organisms. Bioinformatics is thus rapidly growing in importance in the understanding of the interplay between genes and proteins, in the analysis of the genetic variability of species, etc. The aim of this conference is to bring together researchers, professionals, and industrial practitioners for interaction and exchange of knowledge and ideas. We invite submissions that address conceptual and practical issues of bioinformatics.

TOPICS OF INTEREST

Typical, but not exclusive, topics of interest include:

- Sequence Analysis
- Motif Finding
- Recognition of Genes
- RNA Analysis
- Physical and Genetic Mapping
- Evolution and Phylogeny
- Protein Structure Analysis
- Microarray Design
- Transcriptome, Gene Expression
- Proteomics
- Pathways, Networks and Systems
- Ontologies
- Databases and Data Integration
- Text Mining
- Population Genetics/SNP/Haplotyping
- Comparative Genomics, Genome rearrangements
- Applications

IMPORTANT DATES (Tentative)

Submission of papers:	Jul 15, 2006
Notification of paper acceptance:	Sep 15, 2006
Submission of posters:	Sep 30, 2006
Camera-ready copy & Author registration:	Oct 10, 2006
Notification of poster acceptance:	Oct 20, 2006
Conference:	Jan 15 - 17, 2007

PROGRAM COMMITTEE

Tatsuya Akutsu (Kyoto University)
 Miguel Andrade (Ottawa Health Research Institute)
 Stephane Aris-Brosou (University of Ottawa)
 Joel Bader (Johns Hopkins University)
 Serafim Batzoglou (Stanford University)
 David Bryant (University of Auckland)
 Jeremy Buhler (Washington University in St. Louis)
 Peter Donnelly (University of Oxford)
 Dannie Durand (Carnegie Mellon University)
 Nadia El-Mabrouk (University of Montreal)
 Robert Giegerich (Bielefeld University)
 Carole Goble (University of Manchester)
 Concettina Guerra (Universita' di Padova)
 Dan Gusfield (University of California, Davis)
 Michael Hallett (McGill University)
 Sridhar Hannenhalli (University of Pennsylvania)
 Daniel Huson (Tübingen University)
 Gavin Huttley (Australian National University)
 Jenn-Kang Hwang (National Chiao Tung University)
 Tao Jiang (University of California - Riverside)
 Uri Keich (Cornell University)
 Anand Kumar (University of Leipzig)
 Tak Wah Lam (University of Hong Kong)
 Doheon Lee (KAIST, Korea)
 Jinyan Li (Institute for Infocomm Research)
 Wentian Li (Feinstein Institute for Medical Research)
 Guohui Lin (University of Alberta)
 Michal Linial (The Hebrew University of Jerusalem)
 Zhijie Liu (University of Georgia)
 Bin Ma (University of Western Ontario)
 Satoru Miyano (The University of Tokyo)
 Laxmi Parida (IBM Thomas J. Watson Research Center)
 Mark Ragan (University of Queensland)
 Marie-France Sagot (University Claude Bernard, Lyon I)
 Akinori Sarai (Kyushu Institute of Technology)
 Vincent Schachter (Genoscope)
 Steven Skiena (State University of New York at Stony Brook)
 Yun Song (University of California, Davis)
 Robert Stevens (University of Manchester)
 Edward Susko (Dalhousie University)
 Alfonso Valencia (Centro Nacional de Biotechnologia)
 Michael Waterman (University of Southern California)
 Ken Wolfe (University of Dublin)
 Stacia Wyman (Williams College)
 Hong Yan (City University of Hong Kong)
 Qiang Yang (Hong Kong University of Science and Technology)
 Kaizhong Zhang (University of Western Ontario)
 Liqing Zhang (Virginia Tech)
 Louxin Zhang (National University of Singapore)

SUBMISSION GUIDELINES

APBC2007 invites high-quality original papers on any topic related to Bioinformatics. Papers should be no more than 10 pages in length, all-inclusive -- title, addresses, abstract, text, figures, tables, and references, conforming to the formatting instructions for the series *Advances in Bioinformatics & Computational Biology* (instructions available at the APBC2007 website). Papers will be judged on originality, significance, correctness, and clarity. Authors should submit one copy of a PDF file to APBC2007 Paper Submission Website. The full paper must be submitted by 15 July 2006. The proceedings will be published as a volume in the series *Advances in Bioinformatics & Computational Biology* by Imperial College Press. Expanded version of the selected papers will be invited for publication in the *Journal of Bioinformatics and Computational Biology*. Inclusion of a paper in the proceedings is contingent on one of the authors registering and presenting at the conference.
