

THE UNIVERSITY OF HONG KONG

DEPARTMENT OF  
COMPUTER SCIENCE

HKUCS Computer Vision Lab Virtual Workshop Series

# When 3D Reconstruction meets Deep Learning

Date: 7-Jan-2021 (Thu)

Time: 10:30am – 1:50pm (GMT+8, HK Time)

Webinar via Zoom

Host: Dr. Kenneth Wong, HKU

Free Registration / More Details

<https://cms-a.cs.hku.hk/compvislab/>

Invited Speakers:

**Prof. Noah Snavely**  
Cornell University, USA  
*The Plenoptic Camera*

**Prof. Hao Li**  
Pinscreen and UC Berkeley, USA  
*Making Avatars and Volumetric Teleportation  
Accessible using 3D Deep Learning*

**Prof. Tat-Jun Chin**  
The University of Adelaide, Australia  
*End-to-End Learnable Geometric Vision*

**Prof. Kyoung Mu Lee**  
Seoul National University, Korea  
*Learning to Reconstruct Whole Expressive  
3D Human Pose and Shape from Single Image*

**Prof. Andreas Geiger**  
University of Tübingen, Germany  
*Neural Implicit Representations for 3D Vision*
